

❖ **IMAGE**❖ **OVERVIEW**

- GIT SCAN designed as a portable computer by using Windows CE operating system with touch screen. This is a diagnostic tool integrates many professional functions, high quality with technology in the Japan. It is allows accurate diagnose, stable, comprehensive, easy for user, support for English standards and some others.
- Appliances determine fault for all cars in the world and all trucks, mini bus, medium bus, large bus and build vehicles with both 24V and 12V battery in Korea and Japan
- Support all standard OBD1, MOBD, EOBD, JOBD and OBD2 in the world and trucks protocols.
- GIT SCAN has voted is best in professional scanner in the market at this time.

❖ **FUNCTION****1. The main functions**

- Read / erase error fault
- Reset ECU
- Reset oil pressure warning light
- Reset fuel pump
- Display current parameters and live data
- Active test the actuators (components and the control block)
- Show ECU information

❖ **APPLICATION RANGES****1. TRUCKS 24V and 12V Battery**

- **Truck and Bus South of the Korea**
 - ✓ Hyundai small trucks
 - ✓ Hyundai average trucks
 - ✓ Hyundai heavy trucks
 - ✓ Hyundai Tractor
 - ✓ Hyundai small bus
 - ✓ Hyundai average bus
 - ✓ Hyundai large bus
 - ✓ KIA small trucks
 - ✓ KIA average trucks
 - ✓ KIA large trucks
 - ✓ KIA small bus
 - ✓ Hyundai construction Machines
 - ✓ KIA construction Machines

- **Trucks and passenger bus of the Japan**

- ✓ Mitsubishi / Fuso trucks and bus
- ✓ Hino Truck and bus
- ✓ Isuzu Truck and bus
- ✓ Transportation Mitsubishi Hino
- ✓ Hino construction Machines
- ✓ Isuzu construction Machines

2. PASSENGER CARS:

- **KOREA:** Hyundai, Kia, Daewoo, Cheverolet, Ssangyong
- **JAPAN:** Toyota/Lexus, Nissan/Infinity, Honda/Acura, Mitsubishi, Suzuki, Daihatsu, Subaru
- **EUROPE & AMERICAN CARS:** BMW, AUDI, MERCEDES, VOLKSWAGEN, MINI, PERODUA, FOR, GM...

❖ **PACKAGE**

- 01 GIT SCAN main machine with the connector's accessories integrated in suitcase
- 01 DTD Code software with licensed to a PC
(it is professional software lookup most data of trouble code for all of cars and trucks in the world)
- 01 The package of software to lookup most data and wiring electrical diagram of vehicles in the world

- Programming / erase key code
- Adjustment of sensors (steering angle sensor, acceleration sensor horizontally, steering angle sensor deviation etc ...)
- Check gear solenoids
- Adjust the ignition advance timing
- Warning low battery of key
- Display information when has collision (at the front, side, driver side, passenger side)
- Anti-theft warning
- The equipment system work:
- Engine control system (PCM)
- Chassis system (Chassis)
- Anti-Lock Braking System (ABS)
- Traction control system (TCS)
- Electronic gear control system (AT / EG)
- Body system (Body)
 - + Door lock system
 - + Lighting Systems
 - + Wiper & washer system
 - + Window and convertible system
 - + Air Conditioner control system
 - + Lock remote control system of door
 - + Mirror observing system
 - + Electric seat control system
- Airbag system (SRS)
- Instrument panel system (IP)
- Security key System (Immobilizer)
- 4-wheel drive system (4WD)
- Cruise control system (ACC)
- Electronic power steering System (EPS)
- More some others that depending on the support from ECU of vehicle manufacturers
- The Hybrid engine control system (Hybrid)
- Electronic damping system (ECS)
- Radio System (RADIO)
- Back support system and parking
- Electronic Stability System (ESP)
- Sound System (TONE)
- Other electronic control system

2. Special functions

- System Auto Search: Users do not need to select the test system. The device automatically search and

(included of 03 software are Autodata, Alldata, Mitchell on demand lasted version)

- 01 User guide

❖ TECHNICAL SERVICE

- Support update data online via TeamViewer
- Support technical in the repairing online 24/24
- Support information free
- Warranty 12 month for techniques faults of product

detect the electronic control system on the vehicle,
automatically identify errors and suggest repairs

- Read/ write and edit QR codes for diesel injectors
- Read / write data nozzles, nozzle adjustment, reset nozzle
- Reset and active ECU software, high pressure Pump of Diesel engine

3. Other Features

- Display data as text, graph
- Save and display the data to determine the current breakdown of the sensor and related components.
- Support information and suggestions to repair defects in English
